OUTHILL

BOATBUILDERS

Over 25 years manufacturing high quality marine seating, steering consoles, deck lockers, and boats for the marine industry

company history

Outhill Boatbuilders was formed in 1980 to produce a range of quality sports fishing boats and G.R.P. components for the marine industry.

Over the years, we have acquired a reputation for quality and innovation in what we do. We can now offer possibly the most extensive range of G.R.P. steering consoles, seat boxes, marine seating, deck lockers and accessories available in Europe today.

Our boat building experience has enabled us to carry out a large number of successful projects over the years from small to large structures including wheelhouses and boat hulls for other boat builders.

Although our main business is now seating and steering consoles, we have always continued to be boat builders which we believe gives credibility to the components we produce and gives us a platform for testing new ideas.

Today our products are used all over the world in craft such as Avon, Zodiac, Zeppelin, Grandbanks, Sunseeker, Tornado, Humber, Corvette and many more.

*Over 25 years manufacturing high quality
marine seating, steering consoles, deck lockers,
and boats for the marine industry.*

flybridge seating

Outhill Boatbuilders produce a range of attractive bench and helm seating ideal for use on fly-bridges. Many of our models incorporate storage space beneath which is ideal for storage of ropes and other fly-bridge equipment.

comfort and style

BS3

BS18A

BS10

CC20/TS

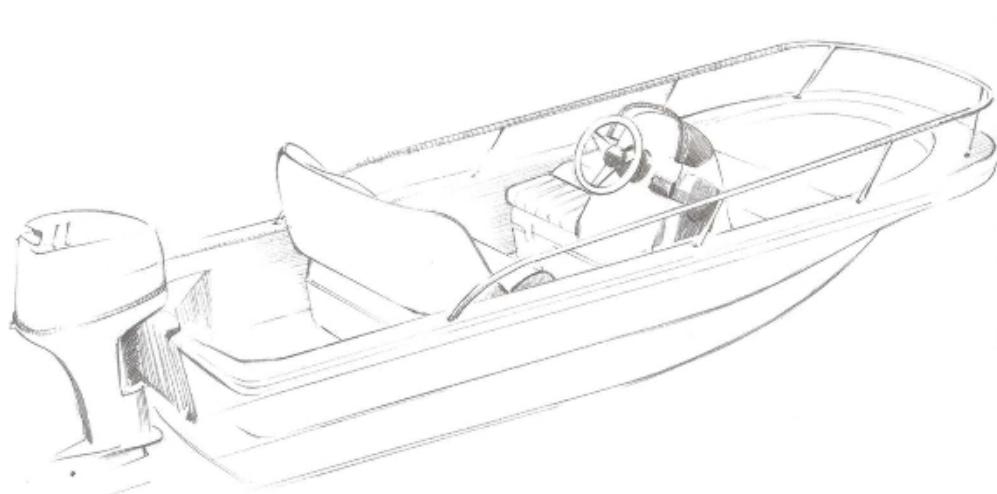

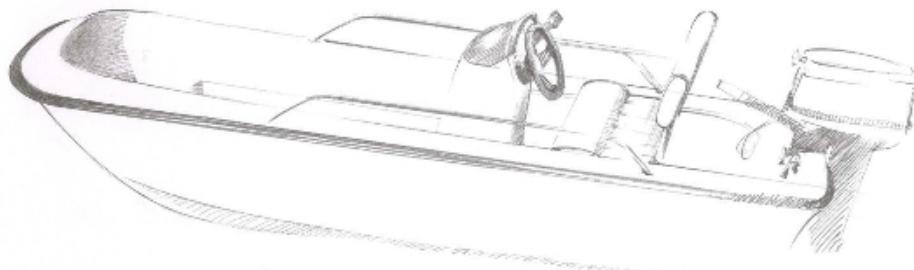

CC21/SS

Outhill Boatbuilders produce a range of centre consoles and bench seating which when combined are ideal for application in boats of 3.0–5.0m in length.

Our wide range is interchangeable which allows boat owners to mix and match seat and console styles giving them the versatility to chose an arrangement to suit their own taste and needs.

See below for illustrated examples of the types of arrangements which are possible.

See Bench Seating and Centre Console section for further details.

Outhill Boatbuilders recommend that owners measure the actual position where the unit is to be installed to ensure a correct fit.

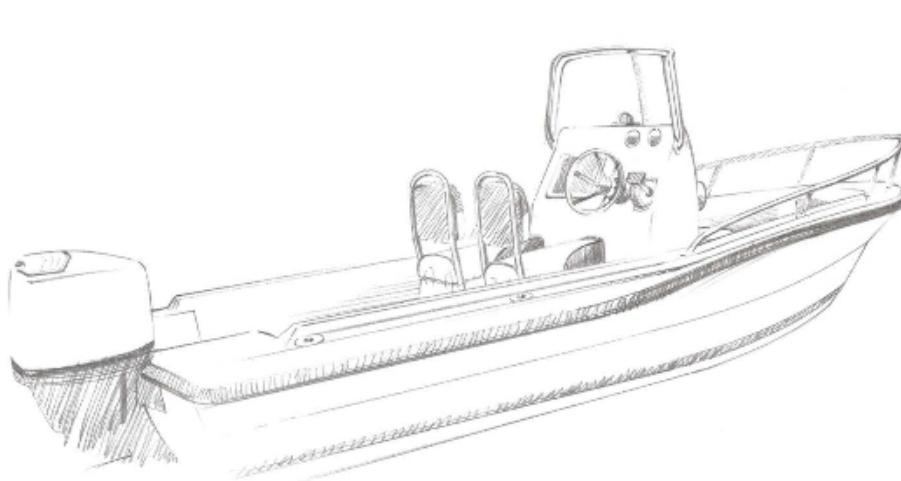

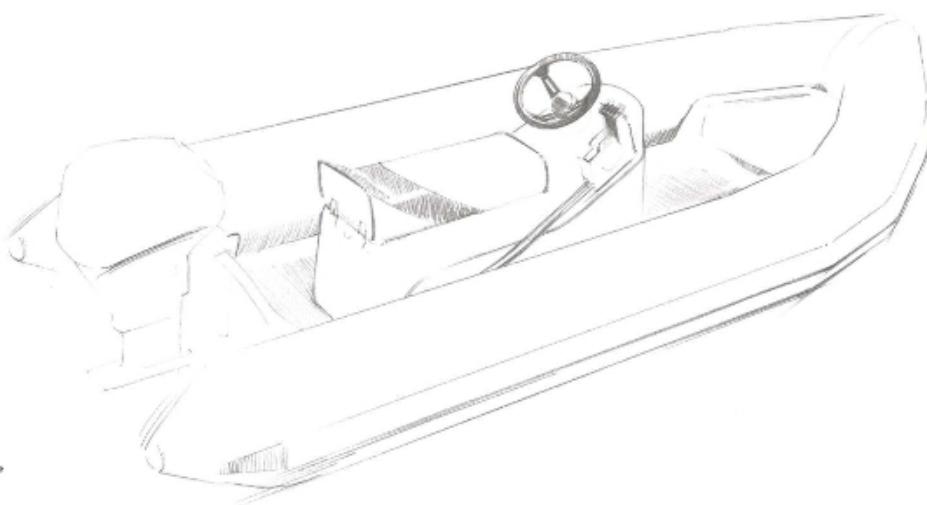

fast and sporty

The jockey console/ seat is a popular choice for the more demanding driver who enjoys the high speed ride and is also an ideal solution when space is a consideration.

Outhill Boatbuilders range of jockey consoles and jockey seats is ideal for application in both small and larger boats and is available in both single and double seating arrangements.

See below for illustrated examples of the types of arrangements which are possible.

See Jockey Consoles/ Seats section for further details

Outhill Boatbuilders recommend that owners measure the actual position where the unit is to be installed to ensure a correct fit.

combined seating

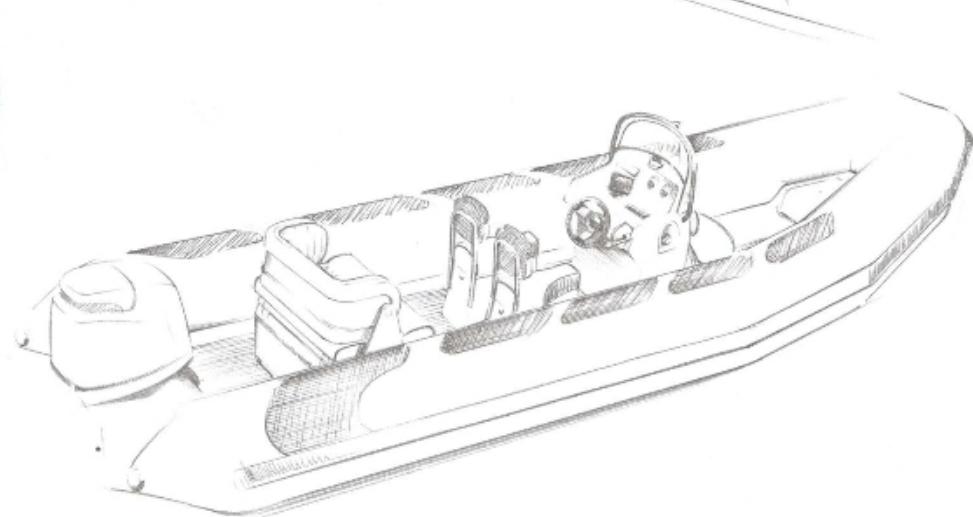

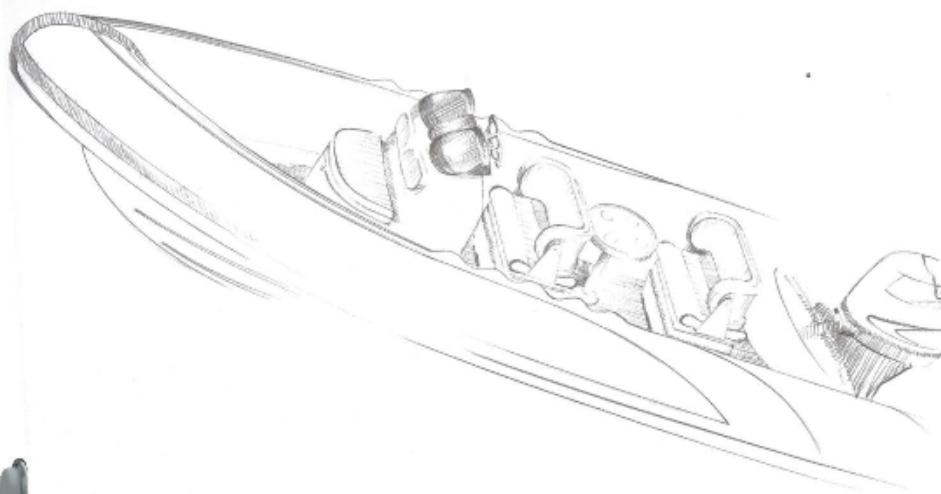

Outhill Boatbuilders product range can be used in a wide variety of combinations which are ideal for application in larger boats.

Our range of larger centre consoles can be combined with 2 jockey seats for driver and passenger followed by a comfortable bench seat at the rear, ideal for a family leisure boat.

Alternatively a large jockey console can be teamed with jockey seats for a sportier ride.

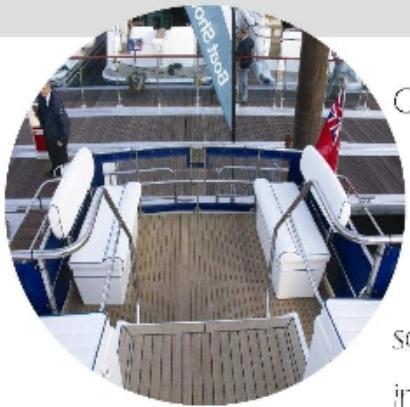

See below for illustrated examples of the types of arrangements which are possible.

See Bench Seating , Centre Consoles, Jockey Consoles/ Seats section for further details

Outhill Boatbuilders recommend that owners measure the actual position where the unit is to be installed to ensure a correct fit.

bench seating

Outhill marine seating combines marine quality G.R.P. base storage units with attractive vinyl upholstery for comfort and style. We offer a wide range of sizes which can be used in isolation or combination to create the optimum seating solution. All upholstery is available in a range of colours.

BS3

BS3A provides a simple fold down seating/storage solution combining a marine quality G.R.P. base storage unit with comfortable vinyl upholstered seating.

BS3, BS5 and BS8 provides a simple seating/storage solution combining a marine quality G.R.P. base storage unit with comfortable vinyl upholstery.

Additional features

Available with fold down or removable backrest

BS3A

BS6 and BS9 back to back bench seat models offer a highly versatile seating solution which is particularly valuable when space is limited. The cushioned backrest is removable for ease of storage when not in use.

BS9

BS10

BS10 offers both style and practicality combining a striking bucket style bench seat with storage space beneath.

Additional features

Available in 2 different heights

BS10A

BS10A provides a simple and stylish seating solution with reversible backrest for maximum versatility. The backrest mechanism is manufactured from polished stainless steel for a striking finish.

BS15

BS15 is one of our most popular seats and provides an extremely versatile seating solution with its reversible backrest feature. The seat can be set in a forward position or reversed to watch activities taking place at the rear of the boat such as flailing or water skiing. All fixtures including backrest mechanism are manufactured in polished stainless steel.

BS15	53	99	84	52
BS10A	54	93.5	80	48

Dimensions shown in Centimetres

bench seating

BS21 offers style and comfort combined with practicality. The seat incorporates a fold down upholstered backrest which is ideal for use on a fly-bridge where there is the need to reduce the overall height. The storage box beneath provides ideal storage for ropes and other fly-bridge equipment.

BS24 a wide bench seat with a split fold down backrest particularly suitable for fly bridges. The seat incorporates storage space beneath which provides ideal storage for ropes and other fly bridge equipment.

BS20 and BS23

Two truly stylish seats. The BS20 and its larger sister the BS23 combine luxurious upholstery with a reversible backrest for maximum versatility. The backrest mechanism and other fittings are manufactured from polished stainless steel.

Fitting Instructions

All Bench Seats featured must be fitted to a flat, rigid platform. A fitting guide is supplied with all products.

lean posts

LP2/MK2, a restyled version of our popular model LP2 which was introduced last year. LP2/MK2 is made from a single GRP moulding which provides a large, enclosed storage space beneath the seat and additional storage in the top section.

LP2/MK2 can be used in position 1 as a lean post or position 2 as a seat. When stowed as a seat, LP2/MK2 provides a lean post and seat in one stylish moulding.

Position 1

Position 2

LP2/MK2

LP3 is a simplified version of LP2/MK2 and provides all the same features, but excludes the fold up seats. LP3 provides ultimate functionality whilst maintaining comfort and style.

LP4

LP4/C LSA tilted with Origo 2000 single burner spirit stove

LP4 helm station leaning post is ideal for use in a RIB or cruiser. This stylish model incorporates a GRP moulded sink and stove mounting area concealed beneath the hinged top moulding. LP4 can be fitted with an Origo 2000 single burner spirit stove or similar appliance. A deck wash could also easily be fitted. This practical unit also provides a generous storage space which is easily accessed via a large front hatch.

UB1 a stylish galley unit which incorporates a GRP moulded sink and cool box. UB1 can also be fitted with an Origo 2000 single burner spirit stove or similar appliance. A deck wash could also easily be fitted. This practical unit also provides a generous storage space which is easily accessed via a large front hatch.

Fitting Instructions

All products featured must be fixed to a flat rigid platform.
A fitting guide is supplied with all products.

steering consoles

Outhill provide a comprehensive range of stylish and practical Centre Steering Consoles manufactured from marine quality G.R.P. All consoles are designed to maximise the potential area for mounting steering and navigational equipment and incorporate storage and extra seating on some models.

CC15

CC16

CC15 and CC16 simple and stylish centre consoles with colour co-ordinated G.R.P. cowl feature which are popular with the Avon Adventure range.
CC15 suits boats of 4m and larger, whilst it's little sister the CC16 will suit smaller boats.

CC21/SS

*Model pictured with optional deck brace

CC20/FS

A forward seat version of CC21/SS is also available using the same head and base unit configured in a different manner.

CC9

CC9
A functional centre console with ample room for instrumentation.

Model	Max depth	Max Width	Max height	Seat height
CC9	46	93	714	-
CC15	50	96	78	-
CC16	49	96	75	-
CC20/FS	95	96	117*	90
CC21/SS	52	96	117*	46

Dimensions shown in Centimetres

*max height including brace.

steering consoles

CC12/FS

CC12/FS One of our most popular models the CC12/FS is guaranteed to stand out from the crowd! This console incorporates a stylish colour co-ordinated twin cowl feature. The dual control panel allows for maximum installation of steering/ navigational equipment and provides a central position ideal for compass mounting.

Additional features

Vented front compartment ideal for battery installation

CC14/FS

For those who like a windspeed for that high speed ride. The model incorporates a heavy duty Perspex windscreen available in 2 heights, with a polished stainless steel rail. The top of the unit is hinged for ease of fitting/ maintaining instruments.

Additional features

Vented front compartment ideal for battery installation

Windscreen available in 2 heights, High (pictured)/ low

CC19/FS

CC19/FS is a more stylised version of our solid console range. This model provides maximum space for instrumentation and controls, and the overhang design provides plenty of leg room.

Additional features

Vented front compartment ideal for battery installation

CC22/FS

CC22/FS is a variation on our popular CC19/FS. The CC22/FS has been designed with a recessed Port mounting area which allows for the easy installation of hydraulic steering systems which are so popular on RIBS today.

Hanging Instructions

All steering consoles feature a must be fitted to a flat rigid platform. A fitting plate is supplied with all products.

jockey consoles/ seats

Outhill Jockey Consoles and seating provide the best solution for the more demanding driver who enjoys the high speed ride. The tough G.R.P. base units have been shaped to maximise driver/ passenger comfort incorporating high quality upholstered seating into every model.

JC6SA and JC6TA Provide a compact 1 or 2 person console/ seating solution which is ideal for application in smaller RIBs. The models incorporate a hinged seat for ease of fitting/ maintenance of instruments and access to storage space beneath which can be used for fuel tank installation.

JC12T
Additional features
Inset hatch for fitting/ maintenance of instruments
Polished stainless steel upholstered backrest

JC12T combines an eye catching colour co-ordinated cow design with maximum functionality and is ideal for application in medium size RIBs. This de-luxe 2 person jockey console incorporates a tapered base for maximum comfort with a slyish stepped height seat cushion. The model provides ample under seat storage and will accept up to a 22 litre plastic fuel tank through rear.

JC14A
provides a highly functional 2 person steering and seating console solution, ideal for application in medium sized RIBs. This model incorporates an upholstered lift up seat with storage space beneath which can be used for fuel tank installation.

JC14T
Additional features
Polished stainless steel upholstered backrest

JC14T
The efficient console base design which provides under seat storage will accept up to a 22 litre plastic fuel tank through rear, is ideal for use in smaller RIBs. A de-luxe stepped height seat cushion in quality vinyl upholstery adds maximum comfort.

JC6TA

a-frames & accessories

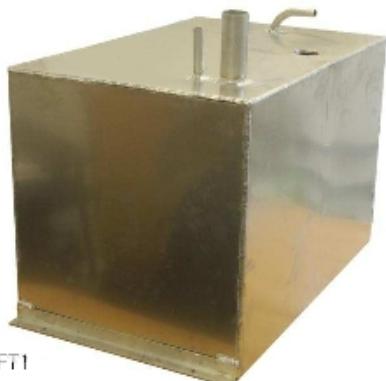

A-Frames Outhills range of stylish A-Frames are manufactured from polished stainless steel for a striking finish. All models have a degree of adjustability and can be fitted to most boats.

AF2A single 2" tube
adjustable stainless steel,
transom mounted, A frame
A = 136cm
B = 183cm max. 109cm min.
C = 212cm max. 165cm min.

AF1 single 1.25" tube
adjustable stainless steel,
transom mounted, A-frame
A = 125cm
B = 100cm max.
C = 150cm max.

FT1

FT1 can be bought separately as fuel tank only or with our 'easy fit' fuel filter kit (FT1/K) which makes fitting a 100 litre fuel tank into a console much easier. FT1/K includes: 1 x length 38mm hose plus 2 x hose clamps, 1 x length 16mm hose plus 2 x hose clamps, 1 x combined fuel filter and vent, 1 x GRP fuel filter insert, rubber matting, fixings

FT1/K

FT1 is a 100 litre aluminium fuel tank designed specifically with our range of larger steering consoles in mind. (CC12/S, CC14/S, CC19/S, CC22/S) FT1 = 416 x 67w x 42h

TS1

TS1 a practical fuel tank seat box, which solves the problem of where to locate your fuel tank without taking up valuable space within your boat. This model consists of a base plate and strap for securing a 22 litre fuel tank along with a sturdy 450² cover which doubles up as a seat. For added comfort, a vinyl seat pad is also included. TS1 = 46a x 62w x 33h

BRIA Stainless steel backrest rail with backrest end and fixings.

BRIA = 86.5m x 34.5w

Terms and Conditions

Product use

Outhill Boatbuilders' standard range of components are intended for leisure use only. Commercial specifications are available upon request. All materials used are marine grade, but upholstery is not waterproof and we recommend the use of waterproof covers. These are available from Outhill Boatbuilders [see above for details].

Our consoles can be fitted into a large range of boats. Choice is made based on dimensions and style. We recommend that our consoles are purchased through an experienced marine dealer. Your dealer will assist you in the choice and suitability of components and supply other auxiliary items you may need, however, if you do have any queries about the products being supplied please do not hesitate to contact us on: outhillsales@aol.com and we will be happy to advise you.

Outhill Boatbuilders have no control over the manner in which their products are fitted or used and cannot be held responsible for damages or injury arising from incorrect component choice, fitting or use. All products are designed for use in Category C and D boats.

Please note: Dimensions of individual boats can vary from those give in the manufacturers' catalogues. If space is critical, we suggest that you measure the actual position in which the unit is to be installed.

Guarantee

This guarantee is between Outhill Boatbuilders and the original purchaser. It is not extended to the end-user if this differs from the original purchaser.

Products are guaranteed for 12 months against structural manufacturing defects. If the product is found to be defective within the relevant time period, we will replace all defective parts. Any item which is suspected to be defective must be returned to Outhill Boatbuilders factory for assessment. All repairs must be approved by Outhill Boatbuilders whose decision will be final. Customers should note that Outhill products are hand built in modest volumes. Whilst great care is taken during manufacture, the nature of the GRP process and other techniques involved may result in minor surface blemishes and/or variations in finish. These type of small imperfections have no impact on the strength of our products, they are not considered faults and are not covered by our guarantee. Outhill Boatbuilders are not liable for costs of removal or transport of products to Outhill Boatbuilders for assessment. Outhill Boatbuilders will not be liable for haul-out, launching, towing or storage charges, inconvenience or loss of time or income or any other special or consequential damages of any kind or nature.

This guarantee does not cover defects caused by or resulting from:

- a) misuse, abuse or failure to follow the care instructions applied to the product,
- b) commercial, business or racing use,
- c) damage caused by foreign objects, substances or accident,
- d) fair wear and tear,
- e) structural modification,
- f) repair or alteration so as to affect its use and operation

This guarantee is offered in addition to, and does not affect your statutory rights.

Copyright

Copyright in these designs is owned by Outhill Boatbuilders. It is an offence to copy these mouldings/ products or any part without the authorisation of Outhill Boatbuilders and legal action will be taken should this occur. In addition to this in order to protect ourselves and our customers, it is our policy to name on our website companies that we know have directly copied or used Outhill Boatbuilders designs.
